

# Beekeeping A Seasonal Guide

Buy the new complete guide to beekeeping on amazon free shipping on qualified orders. Beekeeping (or apiculture) is the maintenance of bee colonies, commonly in man-made hives, by humans. Such bees are honey bees in the genus *Apis*, but other honey-producing bees such as *Melipona* stingless bees are also kept. A beekeeper (or apiarist) keeps bees in order to collect their honey and other products that the hive produce (including beeswax, propolis, flower pollen, bee pollen). National Bee Supplies - Beehives made from the highest quality western red cedar including the National, the WBC, the Commercial and all the beekeeping parts, components and bee keeping clothing you will need for your apiary. © Randy Oliver 2013. Page 5 of 45. Unauthorized copying or distribution prohibited. Costs handling gear--one time (\$150) woodenware--new or used; danger of used (\$200) bees at the airport. Beekeeping at the airport is on the rise! Montréal-Mirabel International Airport in Mirabel, Québec boasts a thriving colony of bees at one of the country's largest airports. To learn more, follow the link! Scientific Beekeeping is a not-for-profit enterprise, and I'm happy to receive notes of thanks for how information on this site has contributed to my readers' success at beekeeping (and sometimes saved them hundreds or thousands of dollars).

To anyone interested in keeping bees, welcome to our web site and we hope you will find it useful. It is important to say that although a vast amount of very useful information and help is available online and in many different books and publications, it is a very good idea to join a beekeeping association before starting to keep bees. Bibliography for the why honey is not vegan page. We know many people in our local community are struggling as the furlough continues. Please, if there is anything we can do to help.. Earn a chance at a \$20 gift certificate! Each month, we randomly draw a name from the previous month's new subscribers to receive a \$20 gift certificate! You must be an active subscriber at the time of the drawing. A top-bar hive is a single-story frameless beehive in which the comb hangs from removable bars. The bars form a continuous roof over the comb, whereas the frames in most current hives allow space for bees to move up or down between boxes.
